

# The Darkness Within

The Darkness Within is a Fine Art photography project by Simon Ellingworth in which fragmented moments take on multifaceted cohesion in both meaning and the lines which flow and link each reality to deliver the artists vision.

The individual images are shot as a stream of consciousness, then later become centre weighted triptychs (continuum) which explore a wide range of mental health issues, the dark, the bruised, and often unspoken elements of the human condition.

Whilst the images have strong conceptual meaning, they delivered without title in a nonprescriptive manner, to allow the viewer to create a personal and meaningful interpretation.
